

SAFETY DATA SHEET

Essentials Water Laboratory Analysis Collection Kit

Sacred Sampling Solutions LLC · Prepared in accordance with OSHA Hazard Communication Standard 29 CFR 1910.1200 (GHS)
Issue date: October 5, 2026 · Revision: 1.0 · Language: English

SECTION 1: IDENTIFICATION

Product name	Essentials Water Laboratory Analysis Collection Kit
Brand	Sacred Sampling Solutions
Product code / SKU	43014
GTIN / UPC	00860015546241
Product type	Kit (assembled article): sample containers and shipping materials for mail-in drinking water laboratory analysis
Recommended use	Collection of household drinking water samples for laboratory analysis of total coliform / E. coli bacteria, nitrate, pH and hardness.
Uses advised against	Not for ingestion. Do not use sample bottles for food or beverage storage.
Supplier	Sacred Sampling Solutions LLC Bellport, NY 11713, USA Phone: (631) 875-2958 Email: info@sacredsamplingsolutions.com
Emergency phone	Poison Control (US): 1-800-222-1222 · Emergency services: 911

SECTION 2: HAZARD(S) IDENTIFICATION

Classification	This product is NOT classified as hazardous under the OSHA Hazard Communication Standard (29 CFR 1910.1200) or the Globally Harmonized System (GHS).
Signal word	None
Hazard pictograms	None required
Hazard statements	None required
Precautionary statements	None required. Keep out of reach of children. Do not ingest bottle contents.
Other hazards	None known. The sterile bacteria bottles contain a small amount of white powder (sodium thiosulfate, a dechlorinating preservative). Leave it in the bottle — it is required for the analysis.

SECTION 3: COMPOSITION / INFORMATION ON INGREDIENTS

Kit component	Qty	Contents / material	CAS No.	Approx. amount
Sterile bacteria sample bottle, 120 mL	2	Plastic bottle containing sodium thiosulfate (dechlorinating agent)	7772-98-7	≈10 mg per bottle
Sample bottle, 250 mL HDPE	2	High-density polyethylene; empty, no preservative	N/A (article)	—
Freezer pack	1	Sealed, non-toxic water-based refrigerant gel	Mixture — see manufacturer SDS	—
Insulated thermal	1	Article — insulating	N/A (article)	—

mailer		liner and outer packaging		
Printed materials and labels	—	Collection guide, chain-of-custody card, sample labels, QR registration sticker, prepaid return label	N/A (article)	—

Sodium thiosulfate is not a hazardous chemical under 29 CFR 1910.1200. No component of this kit is present at a concentration requiring disclosure as hazardous.

SECTION 4: FIRST-AID MEASURES

Eye contact	Rinse with plenty of water for several minutes. Seek medical attention if irritation persists.
Skin contact	Wash with soap and water. No adverse effects expected.
Ingestion	Rinse mouth with water. Not expected to be harmful in the small quantity present. Call Poison Control (1-800-222-1222) if concerned.
Inhalation	Not an expected route of exposure. Move to fresh air if any discomfort occurs.
Most important symptoms	None expected under normal use. Powder may cause mild, temporary eye irritation.
Immediate medical attention	Not normally required.

SECTION 5: FIRE-FIGHTING MEASURES

Suitable extinguishing media	Water spray, foam, dry chemical or carbon dioxide — use media appropriate for the surrounding fire.
Specific hazards	Kit is not flammable under normal conditions. Plastics and paper will burn. Thermal decomposition may release carbon oxides; sodium thiosulfate may release sulfur oxides.
Firefighter protection	Standard protective equipment and self-contained breathing apparatus for any fire involving plastics.

SECTION 6: ACCIDENTAL RELEASE MEASURES

Personal precautions	None required.
Environmental precautions	None required for the quantities present.
Cleanup	If a bottle is opened and powder spills, wipe up with a damp paper towel and discard in household trash. If a freezer pack leaks, wipe up gel and discard.

SECTION 7: HANDLING AND STORAGE

Handling	Keep bottles sealed until sample collection. Do not rinse the bacteria bottles or remove the preservative powder. Do not touch the inside of caps or bottle rims.
Storage	Store kit at room temperature in a clean, dry location, away from direct sunlight. Freeze the freezer pack before sample collection. After collection, keep samples cold and ship the same day.
Incompatibilities	Keep away from strong acids and strong oxidizers.

SECTION 8: EXPOSURE CONTROLS / PERSONAL PROTECTION

Occupational exposure limits	None established for any component.
Engineering controls	None required.
Personal protective equipment	None required for normal use. Wash hands with plain soap and water before sample collection.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES (SODIUM THIOSULFATE PRESERVATIVE)

Appearance	White crystalline powder (inside sealed bottle)
Odor	Odorless
pH (aqueous solution)	Approximately 6–8
Solubility in water	Freely soluble
Flammability	Not flammable
Kit as a whole	Solid articles — plastic bottles, sealed gel pack, insulated mailer, paper

SECTION 10: STABILITY AND REACTIVITY

Reactivity	Not reactive under normal conditions of use and storage.
Chemical stability	Stable.
Hazardous reactions	None under normal conditions.
Conditions to avoid	Excessive heat.
Incompatible materials	Strong acids, strong oxidizing agents.
Hazardous decomposition products	Sulfur oxides (from sodium thiosulfate) and carbon oxides (from plastics), on burning only.

SECTION 11: TOXICOLOGICAL INFORMATION

Likely routes of exposure	Eye or skin contact with preservative powder, if a bottle is opened.
Acute toxicity	Sodium thiosulfate: oral LD50 (rat) > 5,000 mg/kg. Not acutely toxic. Quantity in kit is approximately 20 mg total.
Skin / eye irritation	Not classified. May cause mild, temporary eye irritation.
Sensitization	Not classified.
Carcinogenicity	No component is listed as a carcinogen by IARC, NTP or OSHA.
Reproductive / germ-cell / organ toxicity	Not classified.

SECTION 12: ECOLOGICAL INFORMATION

Ecotoxicity	Not expected to be harmful to aquatic life in the quantities present.
Persistence / degradability	Sodium thiosulfate is inorganic and readily dissolves; it does not bioaccumulate.
Other adverse effects	None known.

SECTION 13: DISPOSAL CONSIDERATIONS

Product / unused kit	Dispose of in household trash or recycle packaging where facilities exist, in accordance with local regulations.
Water samples	Unused water samples may be poured down a household drain.

Packaging	Recycle plastics and cardboard where facilities exist.
-----------	--

SECTION 14: TRANSPORT INFORMATION

US DOT (49 CFR)	Not regulated as a hazardous material.
IATA (air)	Not regulated as dangerous goods.
IMDG (sea)	Not regulated as dangerous goods.
UN number / shipping name / class / packing group	Not applicable
Note	Return shipments contain drinking water samples only. Not a diagnostic or infectious substance.

SECTION 15: REGULATORY INFORMATION

OSHA HCS	Not hazardous under 29 CFR 1910.1200.
TSCA	Sodium thiosulfate is listed on the TSCA Inventory.
SARA Title III (Sections 311/312/313)	No components subject to reporting.
CERCLA	No reportable quantities.
California Proposition 65	To the supplier's knowledge, this product does not contain any chemical known to the State of California to cause cancer or reproductive harm.

SECTION 16: OTHER INFORMATION

Prepared by	Sacred Sampling Solutions LLC
Issue date	October 5, 2026
Revision	1.0 — initial issue
